

# Our Brand story

We are not just a product of what happened to us, but we have fought to become who we are.  
- **Inspired by Carl Jung**

We are four women with a diverse set of skills, experience and expertise. Despite being based in different geographical regions, we have come together, driven by a common purpose of Extending Mental Well-being .

# Our Vision

"Creating a community that embraces mental well-being for self and others and has the growth mindset to take necessary actions"

# Our Mission

To empower people by providing opportunities for extending well-being.

With this mission in mind Carpediem adopts a holistic approach:

## Advocacy

We advocate embracing mental well-being and foster an environment conducive for a growth mindset

## Acceptability

We help to destigmatize Mental Health Care

## Accessibility

We create awareness to make Mental Health Care accessible for all

## Adaptability

We adapt to the dynamic nature of human behavior and the environment as a whole

## Ability

We focus on continuous professional development to enhance ability in self and others

## Accountability

We believe in providing customised intervention and continuous monitoring for progress

# What we do

## our online/offline services

Acceptance of all is key to Carpediem, inspiring it to design services that cater to the needs of individuals across the age span and stakeholders involved.

### Therapeutic Intervention

With the objective of making clients self-reliant our intervention aims to foster a realistic understanding of concerns, design individualised plans and monitor progress. Services include Psychotherapy, Counseling, Career Counseling and Creative Therapy.

### Capacity Building

Our multifaceted online/offline capacity-building programs covers the mental well-being and education domains. Our objective is to bridge the gap between theory and practice.

### Special Education Needs

Our objective through the Special Education Needs Program -**Adhyāpana** is to support students in coping with the regular school curriculum and help them grow into future ready citizens. Additionally, the Parent Support Program will partner with parents who actively want to support children at home.

### Thought Leadership & Consultancy

Being thought leader in the Education & Mental Well-being space we offer guidance and insight through our specially designed and curated Consultancy Services to Educational Institutions, Corporates, NGOs and other organizations.

### Assessment

We believe early identification is the key to formulate effective intervention plans/ IEP development /instructional content. Thus we use standardized tests to offer Psychoeducational, Psychological, Career & Psychometric Assessments.
